## INTRODUCTION

This report presents final figures from the 1971 Census of Canada, classified by type of household and income group of head showing dwelling characteristics, living conveniences, values and rents.

The areas for which these figures are shown are as follows: Canada and provinces (Tables 76 to 84 inclusive).

The information in this report was weighted from a 33 1/3% sample of the dwelling universe. As a result, the distributions of dwellings for certain variables may differ slightly from those published in other reports and the number of occupied dwellings for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official count of occupied dwellings (see Catalogue No. 93-727). For an explanation of the difference between the household and dwelling universes, see the definition of "household".

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

**Note:** Coverage in 1961 was for non-farm private dwellings only (excluding Northwest Territories). Since farm income was not collected in 1961, these data are not directly comparable.

There is evidence of a significant response bias in the 1971 figures for "apartments" as compared to "single attached", particularly in the larger urban centres of Quebec. As a result, the 1971 figures for "single attached" are overstated at the expense of the "apartment" category. While it is not possible to assess the extent of the error at this time, its existence should be borne in mind when comparing earlier data with 1971 figures.

### DEFINITIONS

**Household:** For census purposes, a household consists of a person or group of persons occupying one dwelling. It usually consists of a family group with or without lodgers, employees, etc. However, it may consist of two or more families sharing a dwelling, of a group of unrelated persons or of one person living alone. Every person is a member of some household and there is a one-to-one relationship between households and occupied dwellings except in the case of certain special households, such as those of military and diplomatic personnel stationed overseas, from which no housing information was collected.

**Household head:** For census purposes, every household must have a head. This is the husband if both husband and wife are present, the parent (regardless of age or dependency) if living with unmarried children, or any member of a group sharing a dwelling equally.

**Type of household:** Refers to the basic division of households into family and non-family households. The term FAMILY HOUSEHOLD refers to a household containing at least one census family. ONE-FAMILY HOUSEHOLD refers to a single census family occupying one dwelling. The family may be that of the household head or one living as a related, lodging or other type of family with a household head who is a non-family person. A TWO-OR-MORE FAMILY HOUSEHOLD is one in which two or more census families occupy the same dwelling. One family may be that of the household head, or the household head may be a non-family person with whom two or more census families are residing.

The term NON-FAMILY HOUSEHOLD refers to one person living alone in a dwelling or a group of persons, occupying one dwelling, who do not constitute a census family.

Ce bulletin présente les résultats définitifs du recensement du Canada de 1971 en ce qui concerne les genres de ménage et la tranche de revenu du chef, selon les caractéristiques du logement, l'équipement ménager et les éléments de confort, et la valeur et le loyer du logement.

Les chiffres sont publiés pour les secteurs suivants: Canada et provinces (tableaux 76 à 84 inclusivement).

Les renseignements de la présente publication ont été gonflés à partir d'un échantillon de 33 1/3 % de l'univers des logements. Il s'ensuit que les répartitions des logements pour certaines variables peuvent différer quelque peu de celles contenues dans d'autres bulletins et que le nombre de logements occupés pour une région géographique donnée n'est pas forcément le même que dans les publications renfermant des données intégrales. Bien entendu, c'est ce dernier chiffre qui représente le chiffre officiel des logements occupés (voir la publication n° 93-727 au catalogue). Pour l'explication de la différence entre l'univers des ménages et celui des logements, voir la définition de "ménage".

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

**Nota:** En 1961, seuls les logements privés non agricoles (à l'exclusion de ceux des Territoires du Nord-Ouest) ont été pris en compte. Comme on n'a pas recueilli de données sur le revenu agricole en 1961, ces chiffres ne sont pas directement comparables.

Suivant certains indices, les chiffres de 1971 pour les "appartements" seraient entachés d'un important biais de réponse par rapport aux chiffres relatifs aux "logements individuels attenants", surtout dans les grands centres urbains du Québec. Il en découle que les chiffres de 1971 pour les "logements individuels attenants" sont surestimés, aux dépens des chiffres concernant les "appartements". Il est impossible d'évaluer actuellement la portée de cette erreur, mais il faudra en tenir compte lors des comparaisons de chiffres de 1971 avec ceux d'années antérieures.

### DÉFINITIONS

**Ménage:** Aux fins du recensement, un ménage est formé d'une personne ou d'un groupe de personnes occupant un même logement. Il se compose ordinairement d'un groupe familial, avec ou sans chambreurs, employés, etc. Il peut aussi se composer d'un groupe de personnes non apparentées, de deux familles ou plus partageant le même logement ou d'une personne seule. Tout le monde est membre d'un ménage et le nombre de ménages est égal au nombre de logements occupés, sauf dans certains cas particuliers, comme dans celui des militaires et des diplomates postés outre-mer, pour lesquels on n'a pas recueilli de renseignements relatifs au logement.

**Chef de ménage:** Aux fins du recensement, chaque ménage doit avoir un chef. Le chef est l'époux lorsque les deux conjoints sont présents, le père ou la mère (quel que soit l'âge ou le lien de dépendance) s'il n'y en a qu'un des deux avec des enfants non mariés, ou n'importe quel membre d'un groupe se partageant un logement à parts égales.

**Genre de ménage:** Division fondamentale des ménages en ménages familiaux et ménages non familiaux. Un MÉNAGE FAMILIAL comprend au moins une famille de recensement. Un MÉNAGE UNIFAMILIAL se compose d'une seule famille de recensement occupant un logement. La famille peut être celle du chef de ménage ou une famille apparentée, chambreuse ou autre, vivant avec un chef de ménage qui est une personne hors famille. Un MÉNAGE MULTIFAMILIAL se compose de deux ou plusieurs familles de recensement occupant le même logement. Une famille peut être celle du chef de ménage, ou le chef de ménage peut être une personne hors famille avec qui résident deux familles de recensement ou plus.

Le MÉNAGE NON FAMILIAL est constitué d'une personne vivant seule dans un logement ou d'un groupe de personnes partageant le même logement, sans toutefois constituer une famille de recensement.

## DEFINITIONS – Concluded

**Total income:** Refers to the total income received during 1970 from wages and salaries, business or professional practice, farm operations, family and youth allowances, government old age pensions, other government payments, retirement pensions from previous employment, bond and deposit interest and dividends, other investment sources and other sources.

Average income figures are calculated on the basis of household heads reporting income.

**Dwelling:** Refers to a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building, i.e., the entrance must not be through someone else's living quarters.

**Single detached:** This type is commonly called a "single house". A structure with only one dwelling, separated by open space from all other structures except its own garage or shed.

**Single attached:** This category includes dwelling units separated by a common wall extending from ground to roof. Single attached dwellings in structures consisting of only two dwelling units are classified as single attached (double). All other single attached dwellings, whether in rows of three or more dwellings, or simply a unit adjoining a store or other non-residential structure, are classified as single attached (other).

**Apartment:** These dwellings are also subdivided into two categories. Apartment (duplex) refers to each dwelling in a structure originally designed, or structurally converted, to provide two dwelling units, one above the other and adjoining no other structure. Apartment (other) includes all dwellings of the apartment-type other than the duplex-type mentioned above.

**Mobile:** Refers to any dwelling designed and actually movable, such as a trailer, railway car or boat, if occupied by persons with no other usual residence on census date. If placed on a permanent foundation, it is considered to be "single detached".

**Owned:** Refers to a dwelling which is owned by some member of the household. This also includes dwellings under separate ownership in any multiple dwelling structure. A dwelling is classified as owned even though it may be mortgaged.

**Rented:** Refers to a dwelling which is not owned by any member of the household.

**Rooms:** Refers to an enclosed area within a dwelling which is finished and suitable for year-round living. Partially divided L-shaped rooms are considered to be separate rooms if they are considered as such by the respondent (e.g., L-shaped dining-room living-room arrangements). Not counted as rooms are bathrooms, clothes closets, pantries, halls and other rooms solely used for business purposes.

**Value:** Figures for "value" relate to single detached owner-occupied non-farm dwellings, and are based on the amount expected by the owner if the dwelling were to be sold to a willing buyer.

**Mortgage:** Refers to all debts on single detached dwellings owned and occupied by persons other than farm operators.

**Holder of first mortgage:** Refers to the person or organization to whom the first mortgage payments are made.

**Cash rent:** Figures for "cash rent" relate to tenant-occupied non-farm dwellings and are based on the dollar amount required to secure occupancy, but not the ownership, of a dwelling for either the week or month prior to enumeration day.

Definitions of these and other terms, including geographic terms, used technically in this report are discussed in the Introductory Reports to Volume II, Part 1 (2.1-1), Part 3 (2.3-1) and Part 4 (2.4-1).

## MEASURES OF RELIABILITY

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 93-701). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

## DÉFINITIONS – fin

**Revenu total:** Revenu total, reçu en 1970, provenant de la rémunération, de l'exploitation d'une entreprise ou d'une ferme, de l'exercice d'une profession pour compte propre, d'allocations familiales et d'allocations aux jeunes, d'une pension de vieillesse de l'État, d'autres sources publiques, de pensions de retraite relatives à un emploi antérieur, d'intérêts d'obligations et de dépôts et de dividendes, d'autres placements, et d'autres sources.

Les chiffres du revenu moyen sont fondés sur le nombre de chefs de ménage ayant un revenu.

**Logement:** Ensemble structurellement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c.-à-d. que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre.

**Individuel non attenant:** Ce genre de logement est ordinairement appelé "maison individuelle". Construction ne contenant qu'un seul logement et qui n'est rattachée à aucune autre construction, si ce n'est à un garage ou à un hangar en dépendant.

**Individuel attenant:** Cette catégorie comprend les logements séparés par un mur mitoyen s'élevant du sol au toit. Les logements individuels attenants dans une construction ne contenant que deux logements sont classés comme individuels attenants (maisons doubles). Tous les autres logements individuels attenants, qu'ils soient en rangée de trois logements ou plus ou qu'il s'agisse tout simplement de logements attenants à un magasin ou à une autre construction non résidentielle, sont classés comme individuels attenants (autres).

**Appartement:** Les appartements se divisent également en deux catégories. Un appartement (duplex) est un logement faisant partie d'une construction conçue à l'origine ou transformée par la suite pour contenir deux logements superposés et non attenants à une autre construction. Un "appartement (autre)" est un appartement autre qu'un logement faisant partie d'un duplex.

**Mobile:** Tout logement conçu pour être transporté et qui est effectivement mobile, comme une roulotte, un wagon de chemin de fer ou un bateau, s'il est occupé par des personnes n'ayant pas d'autre résidence habituelle le jour du recensement. S'il est placé sur une fondation permanente, il est considéré comme un logement individuel non attenant.

**Possédé:** Logement qui appartient à un membre du ménage. Cela vaut également pour les logements appartenant à des propriétaires distincts dans les constructions à logements multiples. Un logement est classé comme "possédé" même s'il est hypothéqué.

**Loué:** Logement qui n'appartient pas à un membre du ménage.

**Pièces:** Dans un logement, espace fermé qui est fini et habitable toute l'année. Les pièces partiellement divisées en forme de "L" sont considérées comme formant deux pièces distinctes si le recensé les juge distinctes (par ex., les salons-salles à manger en forme de L). Ne sont pas comptés comme pièces les salles de bains, les garde-robes, les dépenses, les vestibules ou couloirs et les pièces servant exclusivement à des fins commerciales.

**Valeur:** Les chiffres relatifs à la valeur se rapportent aux logements individuels non agricoles non attenants occupés par leur propriétaire et sont fondés sur le montant que s'attendrait de recevoir le propriétaire s'il vendait le logement à un acheteur libre.

**Hypothèque:** Toute dette grevant un logement individuel non attenant possédé et occupé par des personnes autres que des exploitants agricoles.

**Détenteur de la première hypothèque:** Personne ou organisme à qui sont faits les versements sur la première hypothèque.

**Loyer en espèces:** Les chiffres relatifs au loyer en espèces se rapportent aux logements non agricoles occupés par un locataire et sont fondés sur la somme versée pour avoir le droit d'occuper un logement (sans en être le propriétaire) pendant la semaine ou le mois précédant le jour du dénombrement.

Les définitions de ces termes et des autres termes techniques, y compris les termes géographiques employés dans le présent bulletin sont étudiées dans l'Introduction au volume II, partie 1 (2.1-1), partie 3 (2.3-1) et partie 4 (2.4-1).

A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

### Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. ### Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

### Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

### Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
